Bjork-Swanson.

A very pretty event took place in Edmonton on Sunday Sept. 24, when Miss Dajny Swanson of Edmonton, became the bride of Mr Hilding B Bjork, the Stony Plain merchant. The ceremony was performed by the Rev S Wessel, pastor of the Norwegian Lutheran church. The bride was attended by Miss Ella Tyveng and Miss Ida Christensen. The groomsmen were Mr John Hopp. After the ceremony a sumptuous repast was served to numerous invited guests.

The happy couple have taken up their residence in Stony Plain. The large number of handsome presents testify to the high esteem in which they are held by their friends.

U. of A. Re-opens.

This was opening week at the University of Alberta, with registrations fully as heavy as last year, despite the fact that there has been an increase in fees for all students, the increase averaging around \$25. Up to yesterday, the 27th, seen the registration of all students in the faculty of arts, including the schools of education and commerce, household economics, and B.Sc. in pharmacy.

Today, the 28th, the registrations are to comprise students taking courses in medicine, school of dentistry, B. Sc. in nursing, agriculture, applied science, law and school of pharmacy. Lectures commence today in all first-year courses.

Enters the U. of A.

Miss Madeline McCulla, the well-known and popular young lady, a graduate of S.P. High, leaves today to enter University of Alberta. Miss Madeline was long a favorite among the young people in this town, taking an active part in many organizations. She will be missed by her many friends, who wish her the best of luck in attaining her mark in the world. She is studying to attain her B. Sc. in Nursing.

Sporting Notes—by H.C.O.

"In the spring a young man's fancy," etc. Well, it's not spring now, but autumn, and the fancies of both young and old should be turned towards the future. In other words, it's about time the hockeyists begin to do something about the local rink. The Senior club enjoyed a fairly good season last year, but if they hope to repeat, something will have to be done to insure more comfort for the fans. Begin now, not after it's too late.

Monday Morning Burglaries.

Early on Monday morning thieves entered the premises of the Hardwick Departmental store, and, after commandeering two barrels, proceeded to fill these with bags of sugar and other groceries.

About the same time the warehouse of the Imperial Oil Co., on the railway spur, was broken into, and a quantity of gasoline and oil, and two steel drums purloined.

The Sommerfield & Mayer oil warehouse adjoining, also was entered, but their takings here was not so good.

The bandits had a truck, and appeared to be accompanied by a covering party in a motor car.

Thursday, Vegetable Day.

In response to the appeal sent out by Alberta relief commission, two cars of vegetables left Stony Plain on Friday, bound for the drought stricken area. One car was consigned to Naco, where Rev G A Sauder is stationed, and several of the latter's old parishioners here sent special contributions to the Sauder family. The consignment had been inspected by the relief commissioner, S H Gandier; and Messrs S G Carlyle and H A Craig, the deputy minister, also paid a visit to those engaged in loading operations. Part of the shipment had been purchased by the Dept. of Agriculture, at a price said to be 30c. a bu. for potatoes.

A large part of the consignment was made up of contributions of various kinds of vegetables given by farmers and others in the district. Among those listed as contributors are:

Men Make The State

Picking up a copy of the Moose Jaw Times the other day, the writer's attention was drawn to an article entitled "Men Make Cities" which opened by quoting the following inspirational lines of an unknown poet taken from the September issue of The Rotarian:

Cities are what men make them,
What men demand they shall be;
Stoical, sloven, and sleeping,
Progressive, beautiful, free.
If the hearts of the builders are noble,
In one with the day and the need,
They will build into grandeur and greatness,
For so it was decreed.

These lines, it is stated, were inspired by the achievement of Atchison, Kansas, as told by Ed. W. Howe, editor of the Atchison Daily Globe. Atchison is one of the smaller cities, but in twelve years it has evolved from a bankrupt, tax-broke city,—"alofthul, sloven and sleeping,"—into one that is "progressive, beautiful, free" with its bonded debt cut 70 per cent. and even while this fine record was being made its tax rate was reduced by 35 per cent.

"How was it done? In 1920 a group of citizens, noting the seriousness of the situation, started a movement to save the city, a new idea took hold of the administration, expenses were cut, and plans formulated to enable the taxpayers to handle the load and reduce the bonded debt and the overhead, and the creditable record was not interrupted through three years of the hardest times ever known, largely because lost courage and confidence was restored.

The Rotarian magazine tells the story in an editorial challenge to Rotarians in every city to be up and doing for the welfare of their home town,—to study its problems and to act. The Moose Jaw Times applies it directly to its own city and declares the challenge comes at this time not only to Rotarians but to every member of every service club of Moose Jaw. The writer of this column in passing the story along would make bold to still further enlarge the field of its application from city or town to the citizenship of every community, large or small, because it is just as true that men,—and women,—make rural communities and little villages as it is that they make cities. It is also true that in these days our rural communities, hamlets and villages are confronted with problems, which, considering their population and resources, are just as heavy and serious as those of the larger cities,—perhaps even more so.

Furthermore, because of the very nature and extent of the world-wide depression which has developed, all communities, large and small, find themselves much in the same position. One cannot in their emergency turn to another because all are adversely affected, and while the willingness to assist may be there the ability to do so is lacking. So communities are thrown back on their resources to a greater extent than formerly.

Again, this has resulted in much purely voluntary work by individuals and organizations being restricted, leading to both individuals and communities turning to and relying upon the State to take over and assume their problems. The net result is a weakening of the morale of the individual, a loss of courage and confidence, the development of habits of slothfulness, and a deterioration of initiative and enterprise. Instead of men adhering to the truth that they make cities and nations, thousands are adopting the false theory that cities and nations make men, and that, instead of it being the duty and responsibility of men to order their lives and make their communities, it is the duty and responsibility of the State to order the lives and control the actions and destinies of the individual, thus revealing the order of the citizens controlling and directing the State.

Observant men and women are more and more coming to the view that the time has arrived to call a halt to this increasing reliance upon the State, and to renewed belief in the truth that, like the citizens of Atchison, Kansas, they must save themselves and their city by action on their own part; that instead of allowing their difficulties and problems to swamp and overcome them, they must overcome their problems and surmount their difficulties. It can be done. It has been done times without number by individuals and communities in the past.

Indeed, if it is not done both the individual and the community, large or small, faces ultimate disaster. The individual will find himself submerged and his individuality largely gone, while the community will end in complete bankruptcy and the loss of its ideal freedom and autonomy.

On the other hand, if the men,—and women,—of a community, be it a small village or a large city, bestir themselves, face and study their problems, and proceed to grapple with them one by one, they will be surprised how much they can accomplish. It will mean the abandonment of existing policies of drifting with the adverse tides. It will mean the lopping off of this expenditure and that; it will mean the application of the most rigid economy in all public administration; it will involve a more active participation by the individual citizen in effecting community savings; it will necessitate community sacrifices for a time just as thousands of individuals have had to make individual sacrifices. But it will mean ultimate success both for the community and the individuals who constitute and make the community.

In a word, it means a return to the proper and sound conception,—that men make cities, not cities make men. And in using the term cities the application is to all organized communities whether rural or urban, large or small.

Any Looseness of the Bowels Is Always Dangerous

When the bowels become loose and diarrhoea, dysentery, summer complaint and other bowel troubles set in, immediate attention should be given and the discharges checked before they become serious.

To check those unnatural discharges there is a remedy in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 58 years. It is rapid, reliable and effective in its action. A few doses is generally all that is required to give relief. Get it at your drug or general store; put up only by The T. British Railway Regulation

No-Smoking Order in Compartments To Be Enforced

In future all passenger coaches on the London, Midland and Scottish Railway will bear a distinctive label, "smoking" or "non-smoking." About 19,000 vehicles, with a seating capacity of more than 1,000,000 will have to be dealt with. Probably a year will elapse before the change-over is complete.

"We have had many complaints," said an official, "about people smoking in non-smoking compartments. They take the view that as smoking is not definitely forbidden they may smoke if they wish to do so. When the new labels are affixed on one will be allowed to smoke in a non-smoking compartment, even if other passengers say they have no objection. Smoking is allowed in 75 per cent. of the coaches and it is not proposed to alter that proportion."

Other railway lines in the United Kingdom have carriages labelled in various ways, meant to indicate they are either for smokers or non-smokers.

CAST OFF UGLY FAT

Woman Loses 28 lbs. in 3 Months

"Three months ago," a woman writes, "I was persuaded to try Kruschen Salts to reduce my weight. I was 222 lbs. I had tried other things, but all to no avail. Now I know that Kruschen Salts are different. In three weeks I lost 5 lbs., and I felt five years younger. I really must say I feel a different woman. I have now lost 28 lbs. to date." — (Mrs.) S.G.B.

If you are overweight take one half-teaspoon of Kruschen Salts in a glass of hot water before breakfast every morning. There will be no rapid or alarming loss of weight, but just a steady decrease of that flabby fat which is as unhealthy as it is ugly. Kruschen is a scientific blend of six mineral salts found in the waters of those European spas that have been used by generations of overcast people to reduce weight.

Rising Tide Of Fascism

Warning Is Sound by Secretary of Workers' League

Warning against the "rising tide of Fascism," exemplified by the Blue Shirts of Canada, was sounded by J. C. Wilson, of Winnipeg, National Secretary of the Workers' League, at an open meeting of returned soldiers at Windsor, Ont.

"I understand the slogan of the Blue Shirts is 'Join us and get a job,' but that does not amount to a bill of beans," Mr. Wilson said. "In Winnipeg we formed the Old Contemplatives and had the same slogan. The only job offered us was police duty during trouble, a job now filled by 62 members of the Canadian Legion.

"There is no job for them except as storm troops for a Fascist government. That is their role, the same role as Fascists in Vancouver, strong-arm squad in Winnipeg, and Steel Helmets of Montreal.

"The time has come when you, as your economic needs, as the only effusions, must unite and fight for your economic needs, as the only effective weapon to combat the rising tide of Fascism and possible war in six months."

Tomb Of Viking Chieftain

Discover Grave Of Warrior Buried 1,000 Years Ago

The tomb of a Viking chieftain, buried more than 1,000 years ago, was recently found at Laangtara in central Sweden. The find clearly showed the warrior was of high rank and furnished an interesting example of the burying customs of his day. He had been interred with full arms and with a fine sword, evidently made in the south of England.

The sword hilt was decorated with silver ornaments, on one of which some magic runes had been engraved.

Longest Lived Trees

Older than the pyramids or sphinx of Egypt—Older than the first city built by Cain—Many of the "Big Trees" of California may have been seedlings when Adam walked the earth. English Oaks are also noted for their long life-trees are now standing which were large enough to cut for lumber when the mailed knights of William the Conqueror landed in the year 1066.

Investigated Northern Lights

Scientists Have Spent Fifteen Months At Fort Rae

Aurora borealis shone across the northern sky some 60 miles above the earth, according to calculations made by members of the British polar year expedition who arrived at Edmonton by aeroplane after 15 months spent at Fort Rae, North West Territories, studying weather conditions in the far north.

Five members of the party, A. Stephenson, who was formerly with the Wilkins expedition in Greenland, P. A. Shepherd, R. Morgans, W. A. Grinstead and J. E. Kennedy arrived in a MacKenzie Airways aeroplane piloted by Max Barry, Dr. J. M. Stagg, leader of the expedition, returned by river boat with the valuable instruments used in investigations.

Results of their observations will not be revealed until the voluminous data on meteorology, terrestrial magnetism, aurora and atmospheric electricity as analyzed after their return to England, the scientists stated.

"We simply made the observations and collected the data," Mr. Grinstead explained. "The results of our work will come out later."

In all, 4,000 double photographs of the northern lights were taken by means of cameras on either end of a telegraphic line placed 20 miles apart. Camera and instruments were focused on a star and the photographs taken instantaneously. Thus by means of triangulation the distance and action of the northern lights could be estimated.

CREAMED CELERY AND GREEN PEPPER

One and half cups celery (cut in one-inch pieces); 1 green pepper; 3 tablespoons butter; 3 tablespoons flour; ½ teaspoon salt; ½ teaspoon pepper; ½ cup evaporated milk; ½ cup water; 6 slices toast.

Cook celery until tender. Drain and mix with sliced green pepper. Melt butter in double boiler. Add flour and seasonings. Blend thoroughly. Add gradually evaporated milk and water, stirring constantly until mixture thickens. Cover and cook ten minutes longer in double boiler, stirring occasionally. Add celery and green pepper. Serve on toast if desired. Serves six.

A Profitable Proposition

One rural subscriber who was renewing his subscription the other day to the Pictou, Nova Scotia Advocate, pointed out that he would not miss one issue of The Advocate henceforth as a result of a recent experience. "Why," said he, "if I hadn't been getting your paper I'd have missed a sale the other day at which I made several dollars on the purchase of a cow. I made enough to pay for the paper for two or three years in the one deal."

Better Conditions Due To General Upswing

Improved Business In Canada Not Credited Wholly To N.R.A.

Figures issued by the Dominion Bureau of Statistics indicate business conditions in Canada have progressively improved since March of this year, before the National Recovery Act was passed in the United States.

Although officials of the Canadian Manufacturers' Association would not express an opinion as to whether the increase in Canada's export trade as reported from the Department of National Revenue at Ottawa, was due to influence of the N.R.A., Dominion statistics indicate it was not a major influence.

Physical volume of business, industrial production, manufacturing in the Dominion, along with export trade started on an upward trend in arch, improving steadily in following months. Canada's trade "low" was reached in January-February.

Although some credit is given the National Recovery Act by manufacturers at Toronto, for improved conditions, owing to the influence of conditions in America on Canadian trade, it is considered improvement is principally due to a general upswing in world conditions.

Dairy For Prince Albert

Believing Prince Albert is headed for better times, F. R. Glass, of Kerrobert, announced his plans to establish a dairy there for the retail distribution of pasteurized milk and cream. He has acquired 1,300 acres near the city and built a barn to house 40 Holstein cattle he intends to bring from Kerrobert, where he now operates a dairy.

Unjustified Pessimism Is Chief Trouble Of Wheat Market, In Opinion Of Western Economist

Unjustified pessimism is the chief immediate trouble of the wheat market, according to Dr. W. W. Swanson, head of the Department of Economics in the University of Saskatchewan, who was in Montreal.

The importing countries of Europe have not yet reached their pre-war acreage in wheat, Dr. Swanson claimed, and have considerably reduced their growing of rye. The lessening of imports in Europe was due to no increase in acreage, but to extremely high yields this year and last year. This, he suggested, could not be taken as a permanent factor.

Dr. Swanson drew attention to the statement of B. W. Snow, American wheat statistician, that current United States government estimates of wheat stocks in that country were about 150,000,000 bushels too high and that there was actually no surplus wheat there in excess of domestic requirements and a small carry-over for safety.

As to the "blue eagle" campaign in the United States, Dr. Swanson declined comment other than to say he had never seen any case where the people had avoided the penalty of past extravagance by refusing to admit it existed.

He had been a witness before the royal commission on banking and currency at Saskatoon and consequently declined to comment on the commission beyond an expression of admiration for the manner in which Canadian banks had met the world economic crisis and his opinion that the personnel of the royal commission was a complete guarantee its report would be constructive.

Problems Of Dairymen

Want Eastern Canada To Export Fair Amount Of Butter

Working through the National Dairy Council, the three prairie provinces have made united efforts to induce manufacturers in eastern Canada to export a fair share of butter. That effort started right after a Canadian butter surplus of 9,000,000 pounds was announced August 1. To this date the western provinces have received no indication that any butter would be shipped to the old country from the east, according to P. E. Reed, Saskatchewan Dairy Commissioner and Secretary of the Western Dairy Association.

Mr. Reed said Saskatchewan had shipped slightly more than 1,000,000 pounds to the market overseas. That business, he declared was done at a net loss, the loss being heavier in the earlier shipments than the later ones, the result of better prices obtaining in England.

Model Of Tower Bridge

London's Famous Structure Reproduced By Farmer With Crude Tools

A model of London's famous Tower Bridge, eight feet long, two feet high and 14 inches wide, has been made from wooden boxes of the packing or cigar variety by B. O. Broomhead, farmer of Lydden, Saskatchewan.

It took two winters of steady application to the job and three-and-one-half weeks to paint it.

The tools were a small plane, jack-knife, razor blades, fret saw, scrap glass and sandpaper. Gopher tails were used for paint brushes.

Although he has never seen the structure he set to work and built it for his son. He has not seen the bridge, as it stands in London, either.

Canada's Sugar Refineries

Sugar refining is a considerable industry in Canada. Eight refineries operate in the Dominion: One at Dartmouth, Nova Scotia; one at Saint John, New Brunswick; two at Montreal; one at Chatham, and one at Wallaceburg, Ontario; one at Raymond, Alberta, and one at Vancouver, British Columbia. The value of production from these eight refineries in 1932 was \$41,022,569.

Tenants Had To Use Ladders

Burglars Stole Staircase From Apartment House In France

Not even staircases are safe from the twentieth century Parisian burglar.

Tenants living on the third floor of a French apartment house got up to go to work one morning and found they couldn't go. There was no staircase. It had been removed in the night by burglars.

Telephones and windows had been left intact, however, and while some searched across the street to their incredulous neighbors others telephoned the sceptical police, who eventually called out the fire department. Third floor dwellers had to use ladders for the next two weeks while new stairs were being installed.

AN IMPORTANT UNDER-ESTIMABLE THAT FITS THE FIGURE—GIVES SLENDER APPEARANCE

Here's a pattern that includes panties to match your slip. Think of the time you have so often wasted trying to buy a slip and panties that match.

You can make this darling set in a single morning! It's simplicity itself. It's surprising how little it will cost you.

The slip, cut on princess lines—a few seams to be joined—finishes the neck and hem with lace. The panties have a fitted yoke and circular legs, not too full. The edges are trimmed with narrow lace to match the lace on the slip.

It's very effective in pale pink crepe silk with ecru lace. The edges may also be finished with bias bands. Style No. 846 is designed in sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32 inches bust. Size 18 requires 3 1/2 yards of 36-inch material with 3 1/2 yards of 2-inch lace and 2 yards of 6-inch lace.

Price of pattern 50 cents in stamps or coin (coin is preferred). Wrap coin carefully.

WIDER POWERS FOR DOLFUSS ARE INDICATED

Vienna.—It was authoritatively announced that Chancellor Dollfuss was taking over complete executive control of Austrian affairs, including the army, the police and the gendarmes, in a new "cabinet of personalities."

It was explained the new Dollfuss cabinet will be formed on the basis of elimination of all political parties. Cabinet members who belong to parties will be shelved, and parliament will lay down mandates.

It was not as yet definitely disclosed whether the Heimwehr (home guard) will remain a part of the political picture. A new cabinet list, however, was expected.

Shortly after the announcement a Christian-Social meeting under the chairmanship of Karl Vaughn, minister of the army, and an ironic coincidence—Princess Starnberg, mother of the Heimwehr leader, wound up by issuing a communique to the effect that the party was solidly behind Dollfuss and "the Christian corporate authority" state.

This was exactly the same phrase used by Dollfuss on September 11, when he set forth his conception of the new Austrian state, which precipitated a wordy battle between Prince Starnberg and Vice-Chancellor Winkler.

Northern Air Route

Winnipeg Expected To Be In Important Position In Trans-Atlantic Service

Ottawa, Ont.—While it is too soon to predict the role that Winnipeg will play, it is known here on official authority that negotiations for a trans-Atlantic air service are now rapidly reaching a final stage. The three countries that will co-operate in this venture are the United States, Canada and Great Britain and the route will be north across Labrador or Hudson Bay to Greenland, thence to Iceland and to the British Isles.

The negotiations are now proceeding at London, where the Canadian government and, probably, the Canadian Airways, are represented. The United States participant is the Pan-American Airways, Limited, and the British negotiator is the British Airways.

An announcement of the plans for an early trans-Atlantic service is expected within six weeks.

It is not known here if the plans will call for a branch line from Chicago to Winnipeg and thence northeast to tap the main line, but it is said that this possibility is being considered.

Kitsilano Boys' Band

Have Accepted Invitation To Play At Crystal Palace, London

Vancouver, B.C.—Kitsilano Boys' Band, which won honors across continent, has accepted an invitation to play next summer in the Crystal Palace, London, England, according to the band's calendar for 1934.

The youthful musicians took the Pacific northwest and British Columbia honors in 1931-32-33, the Canadian championship at the Canadian National exhibition in 1932 and the world's championship in their class at a Century of Progress Fair in Chicago recently.

Record Price For Beef

Springfield, Mass.—A new record price for beef steak on the hoof was paid at the baby beef auction at the Eastern States exposition, when the grand champion owned by Theresa Grassi, of Pine Plains, N.Y., brought \$11.15 per pound at auction. This compares with a previous record of \$8.30 paid at the East St. Louis Fair last year.

Blame For Reichstag Blaze

London, Eng.—An international legal commission which has been holding an inquiry into the Berlin Reichstag fire last February, found that grave grounds existed for suspecting that the building was set afire by the Nazis rather than by the Communists whom the German Government has accused.

W. N. U. 201A

Favors Tariff Act

Controlled Inflation And Lower Tariffs Favored By U.S. Official

Chicago.—Secretary of Agriculture Henry Wallace told the United States Grain Dealers' Association that he still favors controlled inflation.

Along with this he criticized high tariff psychology and warned that attempts to fix prices "without control of production is doomed to failure."

"Most of the price fixers are also inflationists," he said. "If the purchasing power of farm products does not improve during the next three months, the price fixers and inflationists will have great power in congress this winter and there will be passed legislation which will make the Agricultural Adjustment Act seem extraordinarily conservative."

Secretary Wallace said he looked for decidedly higher agricultural prices within a few months but that he felt the improvement might come to a sad end if "we are not prepared to meet the peril produced by the following forces." He said these were: "First, America is a creditor nation to the tune of \$1,000,000,000 annually, but, as a nation, she has a debtor psychology. Second, the American people are still essentially high tariff in their attitude. Third, the American people are disinclined about lending money abroad, and it will be difficult to float foreign loans in their present temper."

"These three forces mean that for the time being our people are profoundly nationalist, and that as long as they are operating on this basis, we should go at it wholeheartedly to put our internal economy on a nationalistic basis, reducing our crop land acreage by 40,000,000 acres."

"If we persist in our high tariff policy or even in a half-way modification of it, and at the same time collect in full the money which is owed us abroad, and refuse to lend money abroad, it will take superhuman efforts on the part of the agricultural adjustment administration year after year to keep down our acreage to a point which will afford a living price to American farmers."

Empire News

Clearing House For Empire News Is Suggestion Made

Toronto, Ont.—National press associations in each of the Dominions, freely exchanging news of the empire, were held up as a prospect to hope for in a committee of the British Commonwealth Relations Conference.

It was suggested if South Africa, Australia and India could set up co-operative associations as in Canada and New Zealand, the road would be prepared for the establishment in London of a clearing-house for this empire news, in which the press of the United Kingdom would be invited to participate.

Would Provide Work

Big Reconstruction Project Advocated In Winnipeg

Winnipeg, Man.—A city home reconstruction project, which would provide work for thousands of Winnipeg building tradesmen, is advocated by the civic town planning and zoning board and the Winnipeg building trade council.

The project was discussed at a conference here, and under the plan the Dominion and provincial governments would be asked to finance a scheme for remodeling old, run-down homes in some of the poorer districts of Winnipeg.

American Section At Geneva

Geneva, Switzerland.—The American Minister to Switzerland, Hugh R. Wilson, practically living in Geneva, and with five members of the consular staff headed by Prentiss B. Gilbert, devoting themselves exclusively to League of Nations questions, the league decided to inaugurate a special American section.

Boy Takes Long Journey

Edmonton, Alberta.—Adopted by his aunt and uncle, Mr. and Mrs. R. A. Blench of Edmonton, eight-year-old Walter Houghton, travelled alone from Cape Town, South Africa, to the Alberta capital after his mother and father had died. The boy said he enjoyed the 13,000 mile trip and is eager to see his first snowfall.

Bernt Balchen In Hospital

National Flyer Has Operation For Appendicitis

Cape Town, Union of South Africa.—Bernt Balchen, the noted flyer, well known in Canada, underwent an appendicitis operation described as completely successful.

The mystery of his whereabouts which caused Sir Hubert Wilkins and his shipmates some hours of inquiry was cleared up by a statement that when he left the ship he met a friend taking dinner at a hotel. It was explained he spent the evening in his friend's company and returned shortly before midnight, going to bed quite ignorant of the excitement created by his "disappearance."

Railway Fares

Scaling Down In Prices Seen, And Excursions May Be Permanent Plan

Calgary, Alberta.—Rumored consideration of a scaling down of railway fares in United States is subject to close observation by Canadian railway executives. E. W. Beatty, president of the Canadian Pacific Railway, said here.

"The question of lower fares is a matter of development and depends on future traffic," Mr. Beatty stated. "But I believe, judging by the manner in which they have been patronized in the past few months, excursions have come to stay."

Morphine Case

Victoria, B.C.—Stacks of dried poppy heads were seized in the court room as material evidence as the trial of a Hindu named Beru on a charge of possessing morphine began. Royal Canadian Mounted Police recently seized a truckload of poppy heads from city and Saanich lots and this was the first case arising out of the seizure. The case was adjourned.

CABINET TROUBLE MAY UPSET DOLFUSS

Dr. Engelbert Dollfuss, Austria's "pocket" Chancellor, has been waging a strong fight against Nazi encroachment in Austria, and now reports from Vienna state the diminutive leader is having troubles in his Cabinet. Here we see the Austrian Chancellor (right), a packet of concentrated dynamite, standing beside Baron Franchestein, one of his right-hand men.

No More Free Gas

Say Joy Riders From Alberta Obtaining Free Gas From B.C.

Victoria, B.C.—Joy riders from Alberta have been obtaining free gasoline in British Columbia, according to Hon. W. M. Dennis, British Columbia Minister of Labor, just returned from a trip to the Okanagan and Kootenay districts.

Mr. Dennis said families were driving across the inter-provincial line in old cars and asking for free meals and a supply of gas to move onward. Most municipal officials found it cheaper to speed them on their way with gas instead of harboring them.

The minister said word apparently spread to the prairies and increased the flow of ancient cars from Alberta into the southern section of the province.

Mr. Dennis issued orders no more free gas be supplied to prairie motorists.

Growth Of Empire Trade

Exports For August Of Very Encouraging Nature

Ottawa, Ont.—Exports to British Empire countries in August, exclusive of those to the United Kingdom, totaled in value \$4,074,000. This was an increase of \$622,000 over August last year and the highest since November, 1931, when the total was \$4,372,067, according to the Dominion Bureau of Statistics.

The largest export last month was to Australia, valued at \$866,000, an increase of \$101,000, in which lumber from British Columbia played a conspicuous part.

Exports to the Irish Free State, Newfoundland, Bermuda, the British West Indies, the British colonies of Africa, British Guiana, Hong Kong, Palestine and British Oceania, all showed gains last month.

Find Free Gold

Ore Body Is Discovered In Stevenson Lake Area

The P. M. A.—Predictions made last year that the next big gold finds would be recorded at Oxford Lake and vicinity have been borne out by a number of stakings in the Stevenson Lake area about midway between Oxford House and Island Lake, according to word received here.

Among those in the field is James R. Criderman, of the Criderman mines, Central Manitoba, and well known in Ontario and Quebec.

Free gold is spattered over wide areas. Assays run up to \$120 per ton. Claims extend three miles along Stevenson Lake shore.

Studying Tax Problems

Winnipeg, Man.—J. A. Byng, commissioner of income taxation for Saskatchewan, was in Winnipeg to consult with D. C. Stewart, Manitoba administrator of income taxation, concerning means of eliminating overlapping taxation as respects individuals subject to taxation in both provinces.

FOUR NATIONS MAY AGREE ON ARMS CONTROL

London, Eng.—Broadly outlined, the aims of the British government on the disarmament question are understood to be the application of the principle of armament limitation to all nations and the avoidance of new competition in armaments.

At a special meeting the cabinet reviewed the situation and heard the report of Captain Anthony Eden, under-secretary for Foreign Affairs. The net result of the cabinet's deliberations, the Canadian Press was authoritatively informed, was to leave the ministers firm in their contention that the adoption of a disarmament pact was imperative.

Paris, France.—A united disarmament front of Great Britain, United States, France and Italy, based on the French plan for armaments control, was believed by French officials to be near.

While British quarters were reticent pending the outcome of a cabinet meeting at London, French officials maintained the points of view of the four powers were close enough to enable an accord. This, it was believed, would include the control scheme, sanctions against any nation violating a disarmament agreement, and limitations of armies and guns.

Study Cosmic Rays

U.S. Army 'Plane Carries Instruments Four Miles Above Earth

Riverside, California.—Using army bombing planes to carry their sensitive instruments nearly four miles above the earth, Dr. Robert Millikan, noted Pasadena scientist, and his assistant, Dr. Victor Neher, have resumed their efforts to learn more about the cosmic ray.

An army pilot, garbed in 25 pounds of winter flying clothes and equipped with oxygen breathing facilities which he is compelled to use about 15,000 feet, flew the instruments to 19,000 feet recently.

The plane remained at that altitude an hour and 15 minutes and at 15,000 feet for a similar period. Dr. Neher said he plans several flights daily for two weeks.

Similar tests were conducted on behalf of Dr. Millikan in northern Manitoba in 1932. On that occasion a Royal Canadian Air Force plane made altitude flights after being fitted out as an aerial-laboratory.

Warning Is Given

Heavy Penalty For Melting Down Gold Coins

Ottawa, Ont.—A warning to those who might be tempted to melt down gold coin in order to secure the high price now prevailing for the raw metal, is a statement recently issued by the Department of Finance.

Section 25 of the Currency Act provides that the penalty for illegally dealing with such gold coin shall be a fine not exceeding \$250, or imprisonment for not more than 12 months, or both fine and imprisonment.

Made Dangerous Trip

Edmonton, Alberta.—Four Edmonton youths have completed the treacherous 250-mile canoe trip down the Saskatchewan River and tributaries from Rocky Mountain House to this city. The dangerous waters upset their canoe once, the occupants narrowly escaping death. The canoeists are Bert Wilson, his brother, Howard, Robert Brown and Allan Bralles.

B.C. Lumber Export

Vancouver, B.C.—Export of board feet of lumber from British Columbia in August set a new high record, according to figures issued by the Pacific lumber inspection bureau. The figure was 75,432,000 feet against 73,077,000 in August, 1932, the highest previous month. In August, 1932, export only totaled 27,405,000 feet.

Relief Camps

Edmonton, Alberta.—Officials of the Department of Defense at Ottawa are conferring with Alberta Government officials on the opening of a single jobless relief camps in this province, to be under the defence department's supervision.

At Toronto the Pool won first prize for a salted 14 lb. box; 1st for an unsalted 11 lb. box; 1st for a 56 lb. solid, and 2d for 20 lbs. of print butter.

At Ottawa their winnings were—1st for 20 lbs. of prints; 2nd for a 57 lb. solid.

The entries at both shows were heavy, creameries from all over Canada being represented.

At the London Dairy Show the Pool also won 2 firsts and 1 second prize.

Trades & Labor Congress Rejects the C. C. F.

Endorsement of the principles of the Co-operative Commonwealth Federation was rejected by the delegates to the Canadian Trades and Labor Congress on Saturday, after a keen debate. The Congress was holding its sessions at Windsor, Ont. Delegate Fallon of Montreal apparently expressed the majority view when he declared the workers "should not be tied to the tail of anyone's kite."

The resolution urging endorsement of the C.C.F., coming from Monoton Machinists' Council, was rejected on the grounds it was against the policy of the Congress.

Clean the Separators.

An exchange very seasonably remarks that the route of many a threshing outfit leaving a dirty farm can subsequently be traced for miles by the infestations of stinkweed, wild oats or other noxious weeds occurring to the leeward of the route. A strong wind carries the weed seeds to the edge of the field, where they grow and reproduce; the binder spreads them, and soon a farm is infested. This proving that not nearly enough care has been exercised in the cleaning of separators, racks, wagons, etc., before their removal.

Here and There

It is corn roast time in Canada, one of the two principal outdoor festivals in the Dominion with which the passing of the years does not seem to interfere. The other is "sugaring off" at maple sugar time in the early days of spring.

Canadian Pacific Railway experimental farm at Calgary took honors in the sheep judging at the Canadian Pacific Exhibition held recently at Vancouver with two firsts in each of the ewes and pens classes, five seconds and the grand champion Suffolk ram and ewe champion.

Keeping well in the forefront of the golfing world in Canada, the Seignory Club, Montebello, Quebec, has recently staged a women's golf tournament and has followed this up by the tournament of the Canadian Senior Golfers Association. Both were well patronized, the latter drawing a big and prominent entry from the United States.

The world's valuable deposits of coal and iron ore with the Atlantic nations rather than with those who front on the Pacific, the discussion of the fifth biennial conference of the Pacific Relations Institute held recently at the Banff Springs Hotel, revealed. The fact enters largely into the problems of the countries of the Pacific.

Figures from the Dominion Bureau of Statistics draw attention to the safety of railway travel in Canada. In collisions only two fatalities occurred among a total of more than 21 million passengers. Passenger fatalities numbered only 33. Other fatalities bringing the total up to seven were due to such causes as falling from trains or in getting on or off trains. The figures are for the year to March 31, 1933.

Striking success of the centennial coach travel plan inaugurated last May and June by Canadian railways, providing full facilities for trans-Canada excursions east and west, is the justification of its repetition on the same scale during September. C. P. Kiddell, chairman, Canadian Passenger Association, announces. Two great ideas of travel will again be set in motion, one from the west to the east and the other from the east to the west.

"Starting with the commencement of the round trip from Southampton at the end of August, the Empress of Britain for the following three weeks will be engaged upon what amounts to a continuous voyage of 40,220 miles. In the course of this voyage the ship will spend a total of eighty days actually under way." So states the statement of George Stephen, vice-president of traffic, Canadian Pacific Railway, who was a passenger on an August sailing.

Mr. H. C. Oatway Entertains

On Friday evening last Mr Harold Oatway entertained a few of his friends to a party at his home in the north end of town. Beginning in the early hours of the evening, the dancers set a dizzy pace till the wee small hours of the morning. A dainty lunch was served as a breather, after which the French Minuet became the popular entertainment of the evening. This event proved to be one of the most successful affairs held by the younger set of this town for some time. Those present were:

Madeline McCulla
Maxine McCulla
Marie Clarke
Marie Gannon
Eame Malloch
Bernice Sieber
Muriel Michael
Edith Oatway
Nora Kovensky
Saunders Everit
M B Donaldson
Lorne Oatway

Golden Spike

The funeral took place on Sunday afternoon last of Mrs Katharine Dittmer, relict of the late Jacob Dittmer. Services were held at her late residence and also at St John Lutheran church by the pastor Rev P Hanneman. Interment was made in St John churchyard. Deceased passed away at the age of 74 years, and had been one of the district's oldtime residents. She is survived by four daughters, Mrs K Hickey, Mrs A Wagner, Mrs E Miller, Mrs John Schoeppe; and three sons, Jac, Philip, Henry.

Brightbank News

Threshing is in full swing again, after the recent rainy weather. Grain is turning out fairly good. Several new machines were brought in by Hansen Corner farmers.

Ducks are very plentiful in this district. A prominent sport and business man of Carvel spent a few hours of shooting in this district and returned with a good bag. A curious thing happened him when he shot a bird coming toward him; the bird dropped and slipped down the side of his hunting coat and right on down into the pocket.

Mr C Hedge was a weekend visitor at the home of Mr and Mrs J Scheideinan.

Miss Marjory Young is visiting with Mrs J Schiedeman during the harvesting and the threshing season.

When driving along the road about two miles southwest of Brightbank P. O., Mr Max Bowser saw what he first thought to be a white dog standing on a log, but on getting closer and a better look, it proved to be an albino lynx.

While visiting friends in this district a short time ago Mr Berrie had a little difficulty getting home, owing to the poor light on the road.

Everybody in arrears for taxes in this district are taking advantage of the new Tax Consolidation Act. This new act is a big advantage.

Big Jim is said to have received several bruises when his car bumped into a cow on Hitler ave.

Spruce Grove High School.

The official notice in the "establishment of a rural high school district" appears in the recent issue of the Alberta Gazette. The new district includes Stony Plain S. D. No. 322, Spruce Grove S. D. 450, St John S. D. 1722, Atim Lake S. D. 3205, Michael S. D. 4404, under the name "Spruce Grove Rural High School—District No. 17."

The Obliging Judge.

Frank Ottie, a farmer of the Spruce Grove district, appeared before Chief Justice Simons Monday, on a charge of theft of grain from a neighbor and was given four months at "the Fort." His original sentence was six months, with his term to start Nov. 1st, so he could finish harvesting. Then two months were cut off, allowing him to get out in time to put in next year's crop.

On the Side.

The Edmonton Bulletin continues to publish the Believe-it-or-not stories. Its Friday issue carried a story about that fine gentleman, the Premier of Alberta.

"Twain Burns, we believe, who penned the lines:

"Oh, wad the gift
The Clitgie's us
To see ourselves
As others see us."

Another believe-it-or-not story is the rumor that Jake Miller intends tearing apart his three-story house on Fourth St. and reconstruct it on his farm up at Wemley.

Mentioning Mr Miller reminds the writer of the story Jake used to tell with great gusto. It was in the old days of the Fair at the local school. Whatever exhibits pupils brought became the property of the Fair Committee and were auctioned at the close of the Fair to help pay the prize money. Jake—good citizen that he was—attended the auction of the exhibits, bought the first-prize cake, and took it home. Unfortunately, as it afterward turned out, the original owner of the cake had been invited to tea, and when she spots her cookery effort, walks over to the table exclaiming "Why, there's my cake! How'd it get here?" gave Jake a rueful look, picks up the cake, and heads for home.

At that, the School Fair was a great institution. On its prize list you could turn to page 6 (or was it 7?) and under the heading "Cookery" you'd find this "Doughnuts—ten Years and Under." This was rather misleading, as the ten years indicated the age for exhibitors and not the doughnuts.

Friday last was Bargain day at Drumheller police court—Mrs James Pappas paid a nominal fine for slapping the face of RCMP. Constable M. Nesbitt. The lady had two convictions against her for infractions of the Liquor Act.
